JHELUM DISTRICT.

INDEX TO STATISTICAL TABLES.

PREFACE.

THIS volume is issued under the orders contained in the Punjab Government, Home Department, letter No. 434, dated the 6th March 1912. Th lines on which the revision of District Gazetteers is to be undertaken are lai down in the Government of India, Home Department, letter No. 337 dated 1st October 1902, and are as follows :—

"The chief difficulty which stands in the way of the periodical revision of th existing Gazetteers, and that reason which has caused so large a portion of the contents to become obsolete, is that they contain a mixture of permanent matter, suc as that relating to the history, physical characteristics, religion, ethnography, &c., o the district; of matter which changes gradually but, as a rule, slowly, such as tha dealing with the agricultural and economic conditions; and of ephemeral matte mainly statistical, which soon becomes out of date. For this reason, when a ne District Gazetteer is issued it should consist of two volumes, A and B, compiled on th following lines —

"(1) In the first edition all descriptive matter should go into the A volume but the volume should contain only such general figures (incorporated i the letter-press) as are necessary to give point to remarks in th text. . . . All detailed statistics should be relegated to th B volume, which would, at first, consist only of these and of such notes a may be necessary to elucidate them.

"(2) On the occasion of the next revision the statistics in the B volum should be re-compiled, and this volume should be expanded by adding to it any matter that might be required to correct or supplement the A volume. Thus if there had been a famine since A was published, if a new railway had been opened, and so forth, information on these points would appear in B as supplementary to the appropriate chapters in A.

"(3) This process would go on till the time had come for revising the A volume. Then all the supplementary text matter should be incorporated in the new A volume, and B would revert to its original form as a statistical appendix with explanatory notes.

"(4) A new edition of the B volume should be brought out after each census. The revision of the A volume must be left to the discretion of the Local Governments. The occurrence of a new settlement will ordinarily be the best time for such revision*; but it may well happen that plenty of copies of the original A volume are still available, and that the settlement and lapse of time have not wrought any important change in the conditions of the district. In that case the revision of A should stand over till the stock of it no longer suffices for the demand; but a brief account of the settlement operations and of the changes which they have produced or disclosed in the state of affairs described in the A volume, should be prepared by the Settlement Officer before he is relieved of his duties for inclusion in the next decennial B volume.

"(5) The statistical part of the B volume should be issued with interleaved blank pages, so that those who use it can have the figures of later years written in. The tables included in the B volume should be drawn up on uniform lines, and should contain the main administrative statistics of the district and its tahsils or other sub-divisions. . . . It is thought that including the explanatory notes they should not ordinarily exceed a maximum limit of 50 pages."

Instead of issuing the tables with interleaved blank pages as suggested in para. (5) above, it has been found convenient to print the tables themselves with blank spaces in which to insert the figures of future years. The pages occupied by the statistical matter thus include the space which in the original scheme would have been appropriated by the interleaved pages, and consequently are somewhat in excess of the maximum fixed in para. (5).

---

* In the Punjab the Settlement Officer is generally entrusted with the revision of the District Gazetteer and this plan is commended for adoption in other Provinces.

This volume is issued under the orders contained in the Punjab Gove-
rnment, Home Department, letter No. 436, dated the 6th March 1913. The
lines on which the revision of District Gazetteers is to be undertaken are l[aid]
down in the Government of India, Home Department, letter No. 38,
dated 11th October 1909, and are as follows:—

"The chief difficulty which arises in the way of the periodical revision of
existing Gazetteers, and that which has caused so large a portion of th[eir]
contents to become out of date, is that they contain a mixture of permanent matter, s[uch]
as that relating to the history, physical characteristics, religions, ethnography, &c.,
of the district; of matter which changes gradually but, as a rule, slowly, such as [that]
dealing with the agricultural and economic conditions; and of ephemeral mat[ter],
mainly statistical, which soon becomes out of date. For the future, when a
District Gazetteer is issued it should consist of two volumes, A and B, compiled on [the]
following lines:—

"(1) In the first edition all descriptive matter should go into the A volu[me],
but the volume should contain only such general figures (the proportion[s]
and differences) as are necessary to give point to remarks in [the]
text. . . . . All detailed statistics should be relegated to [the]
B volume, which would, at first, consist mainly of . . . . . such as [illegible]
may be necessary to establish them.

"(2) On the expiration of five years from the publication of the B volu[me]
should be re-compiled, and the volume should be expanded by [any]
further matter that might be required to correct or supplement [the A]
volume, as that if there had been any changes since A was published,
[illegible] had been opened, and so forth. Information as to these [illegible]
should appear as a supplementary to the A volume [illegible]

"(3) At present, revision on [illegible] the time had come for revising the
volume. Then all the changes together [illegible] should be inc[or]-
porated in the new A volume, and B would [illegible]
[illegible] a supplement and appendix with corresponding [illegible]

"(4) A new edition of the B volume should be issued [illegible]
the place of the A volume [illegible] of the
[illegible]. The occurrence of a new census will [illegible]
the time for such revision [illegible]
of the [illegible] A volume [illegible]
[illegible] any important changes in the conditi[ons]
of the district. In that case the volume A should stand over till
[illegible] for the [illegible] a brief account of
[illegible] of the changes which have been brough[t]
[illegible] in the A volume the
[illegible] of [illegible]
[illegible] of the earlier B volumes.

"(5) In the earliest period the B volume should be issued with interle[aved]
blank pages, so that the Deputy Commissioner can insert the figures of later ye[ars]
within it. The tables included in the B volume should be draw[n]
up uniformly [illegible] and should contain no more than one line of statis[tics]
of the district and its tahsils or other subdivision. [illegible]
[illegible] they should not ordinari[ly]
exceed a maximum limit of 60 pages."

Instead of issuing the tables with interleaved blank pages as sugges[ted]
in para. (5) above, it has been found convenient to print the tables themsel[ves]
with blank spaces in which to insert the figures of future years. The pa[ges]
occupied by the statistical tables [illegible] the space required by the origi[nal]
scheme would have been [illegible] the introductory pages and c[on]-
sequently are somewhat in excess of the maximum fixed in para. (5).

* In the Punjab, the Settlement Officer is expected to [illegible]
and this plan is recommended for adoption in other Provinces.

NOTES.—The demand in column 4 will agree with that shown in column 6 of the Revenue Roll sanctioned for the year under review and the preceding year, *vide* paragraph 7 of the Standing Order No. 31.

The collection in column 5 will be those of the demand shown in column 4 only.

2.—No difference whatever can be allowed between column 4 of this return and 7 of the general Kishtbandi.

3.—The income of estates not on the Kishtbandi from their having lapsed within the year or owing to the orders of Government not having been received on them will be excluded.

4.—Again the revenue derived from estates under the Court of Wards or any other trust estates must not be entered either in the "demand" or "collections."

5.—In columns 20 and 21 only show remissions due to the calamity of seasons. Remissions on account of diluvion, acquisition of land, &c., should be excluded.

6.—The numbers of the columns correspond with those of Land Revenue Report, Statement V.
